---

## Front-End Developer

0370 0615423 | shamaaimmirza902@gmail.

### CAREER SUMMARY:

---

I am a frontend developer skilled in React, Next.js, GSAP, Tailwind CSS, Shadcn, and JavaScript. I have built several practice projects, focusing on creating responsive and interactive web applications. I am eager to apply my skills to real-world challenges and continue growing as a developer.

### WORK EXPERIENCE:

---

- Fresher

### PROJECTS :

---

**Zentry - Interactive Gaming Platform** - <https://metagamer-nextjs-gsap.vercel.app/>

- Integrated smooth, interactive animations using GSAP to enhance user engagement and create a visually immersive experience.
- Utilized Next.js for optimized routing, server-side rendering, and fast dynamic content loading, ensuring a smooth and efficient user experience.
- Designed responsive, modular components to maintain high performance and consistency across both mobile and desktop platforms.

**Ochi Design - Business Website**

- Developed a sleek business website using React.js for dynamic content and efficient state management.
- Integrated Framer Motion for seamless transitions and interactive animations to enhance user experience.
